

ERVMAX RETROFIT CASE STUDY

Corporate Square Office Park Tampa, FL

- Completed in September, 1999
- Two 20-ton ERVMAX units w/ ExtraEvap technology
- Capacity increase of 34%
- Energy savings of over 50%

Two new 15-ton York Sunline DX air conditioning units were retrofitted with ERVMAX and ExtraEvap technology. These units provided cooling to 11 suites at the office park. This project provided a 2.6 year pay-back when compared to standard efficiency replacement equipment. These new systems delivered a total gross capacity of 40.2 tons, a 34% increase. A comparison between the prior cost of operation and the new cost of operation showed an energy savings of over 50%.
