

ERVMAX RETROFIT CASE STUDY

Sanibel Island Post Office Sanibel, FL

- Completed in June, 1999
- Three 6-ton ERMAX units w/ E-Coil technology
- Capacity increase of 33%
- Energy savings of over 50%

Three new 5-ton heat pump systems were retrofitted with 6-ton ERVMAX units and E-Coil technology. These new systems replaced two existing heat pumps. This project provided a 3 year payback when compared to standard efficiency replacement equipment. A comparison between the prior cost of operation and the new cost of operation showed an energy savings of over 50%.
